PROJECTS

ARCHONE: MULTI-LANGUAGE STATIC CODE ANALYZER *Javascript, Nodejs, React, Tailwind, Appwrite*

- Developed and published a cross-platform CLI analyzer for JavaScript, Python, and C#, identifying code smells and structural issues with actionable feedback.
- Built an instructor web dashboard to organize classrooms, review students' code analyses, monitor progress, and provide code feedback.
- Designed a beginner-friendly, mouse-driven CLI interface to make static code analysis accessible to students unfamiliar with command-line tools.

AIDE: NO-CODE CHATBOT BUILDER *Typescript, React, Tailwind, Supabase, PostgreSQL*

- Built a web application for creating, customizing, and embedding AI chatbots with configurable appearance and live previews.
- Integrated Google OAuth authentication, knowledge management, conversation history, and chatbot usage dashboards.
- Conducted Grafana k6 load testing, processing 16,723 requests across three runs with 0% failures and p95 response times below 180 ms at 50 virtual users.

MONOSPACE: ALL IN ONE STUDENT PRODUCTIVITY PLATFORM *Typescript, React, Tailwind, ExpressJS, MySQL, Clack*

- Developed a student productivity dashboard for managing tasks, schedules, and notes, implementing JWT-based authentication and authorization.
- Deployed the application on AWS EC2 with Amazon S3 integration and automated CI/CD workflows using Docker and GitHub Actions.

CONTENT HUB: MULTI-TENANT CONTENT MANAGEMENT HUB *Typescript, React, React Native, Expo, Tailwind, Supabase*

- Developed a multi-platform(Web, Android App) content management system for uploading, organizing, and distributing educational resources within Norzagaray College.
- Implemented secure multi-tenant architecture, authentication, and role-based access control.
- Integrated generative AI to automatically create flashcards, notes, and quizzes from uploaded content.
